To the Honourable the President and Members of the Legislative Council of New South Wales.

This Petition of certain citizens of NSW
state that the Shoalhaven District Memorial Hospital has no MRI machine, that plans for one are around 2 years away and that there are plans for spending $434 million on a band aid upgrade of the hospital.
Your petitioners request that the House will:

1. Immediately act to fund a Green fields site Hospital with Sustainable Construction design it-for-purpose Nuclear Medicine Dept at the Shoalhaven District Memorial Hospital with specialist staff and expansion of neurology and stroke services, as well as an Acute Mental Health Emergency Dept, Orthopaedic, Cardiac Catheter Lab and CICU for our Cardiologists to Practice preventing Sydney journeys for our local residents as they age. Upgrade ICU/Trauma and Emergency services and associated increase in staff and employment opportunities for our regional town;
2. Reject existing upgrade plans for the Shoalhaven District Memorial Hospital and instead invest $564 million in a new Grade 5 Hospital for the Shoalhaven with the essential services that will serve the growing needs of the area into the 21st Century and include Sustainable Construction Design Model for Future cost savings using solar, water saving and medical saving capacity.
3. Aboriginal Health Unit to provide Culturally appropriate services to our large Aboriginal & Torres Strait Islander peoples.
4. Garden and Agricultural design to allow fresh hospital food to be provided locally, providing additional employment opportunities.
